

HIGH LEVEL WORK

www.72kran.ru

ABOUT US

Since 2000

Providing services of mobile cranes, transportation of oversized cargo and high installation works.

2011

Official foundation of Avtokran-Tyumen LLC. The company belongs to the Small Enterprise segment.

- Implementation of construction projects on sites of gas and oil facilities.
- Adding capacity and scale to ongoing projects.
- Extending our own machinery fleet.
- Expansion of activities and personnel.

2016

Transition to the Medium Enterprise segment. Workforce is 10 times increased.

Since 2018

Partnership in wind farm construction projects in Russia and Kazakhstan.

2021

Transition to the Big Enterprise segment.

Mobile and
crawler crane
services

WHY US?

Our own fleet of heavy mobile and crawler cranes with lifting capacity up to 800 tons.

Auxiliary equipment: loaders, lift trucks, diesel power stations, low-loaders with lifting capacity up to 100 tons.

Meeting the national and international safety requirements and standards.

Integrated management system in accordance with ISO9001, ISO14001, OHSAS18001.

Our own training ground and participation of licensed professionals in training for working at height.

Solid experience in providing a wide range of services in construction of oil and gas infrastructure and wind industry, oversized cargo transportation.

Wide geographical coverage of activity: all over Russia, CIS countries and near abroad.

Work experience in extreme climatic conditions.

FLEET / MOBILE CRANES

LIEBHERR LTM 1130

Lifting capacity up to 130 tons

LIEBHERR LTM 1160

Lifting capacity up to 160 tons

LIEBHERR LTM 1200

Lifting capacity up to 200 tons

LIEBHERR LTM 1220

Lifting capacity up to 220 tons

LIEBHERR LTM 1230

Lifting capacity up to 230 tons

LIEBHERR LTM 1250

Lifting capacity up to 250 tons

FLEET / MOBILE CRANES

LIEBHERR LTM 1300

Lifting capacity up to 300 tons

LIEBHERR LTM 1350

Lifting capacity up to 350 tons

LIEBHERR LTM 1400

Lifting capacity up to 400 tons

LIEBHERR LTM 1500

Lifting capacity up to 500 tons

LIEBHERR LTM 1750

Lifting capacity up to 750 tons

LIEBHERR LRT 1100

Lifting capacity up to 100 tons

FLEET / CRAWLER CRANES

LIEBHERR LR 1500

Lifting capacity up to 500 tons

LIEBHERR LR 1600

Lifting capacity up to 600 tons

LIEBHERR LR 1750

Lifting capacity up to 750 tons

800
tons

LIEBHERR LR 1800

FLEET / AUXILIARY EQUIPMENT

MORE THAN 100 UNITS OF AUXILIARY EQUIPMENT

TRACTORS

MAN TGS 40.480 6X6 BBS-WW

MAN TGS 33.480 6X6 BBS-WW

MAN TGS 33.430 6X6 BBS-WW

MAN TGS 33.480 6X4 BBS-WW

MAN TGS 33.440 6X4 BBS-WW

TRAILERS

GOLDHOFER THP/SL 12 MODULAR TRANSPORT SYSTEM

GOLDHOFER STZ-DL-4 AAA TRAILERS WITH UP TO 50 M
TELESCOPIC CAPACITY

80 TON LOW BED TRAILERS WITH TELESCOPIC PLATFORM

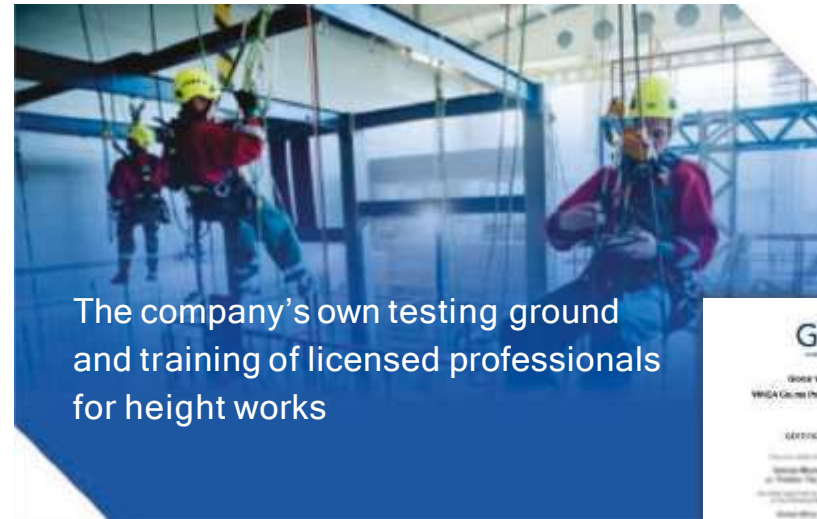

60 TON LOW BED SEMITRAILERS WITH FRONT LOADING AND
TELESCOPIC PLATFORM

60 TON HIGH BED SEMITRAILERS WITH TELESCOPIC PLATFORM

SEMI-TRAILER TRUCKS

SAFETY FIRST

- Meeting the national and international safety requirements and standards.
- Integrated management system in accordance with ISO9001, ISO14001, OHSAS18001.
- GWO BST advanced training courses for engineering and technical staff.
- Regular staff trainings in the focus areas, qualification upgrades.
- Ready to complete any training courses in accordance with customer's standards.
- Bank guarantees from leading Russian banks.

The company's own testing ground and training of licensed professionals for height works

OUR PROJECTS

MAJOR IMPLEMENTED PROJECTS

НОВАВИНД
РОСАТОМ

One of the leaders in the wind energy industry in Russia

Republic of Adygeya

Adygei WF 30 wind turbines 75 MW

Stavropol Region

Kchubeevskaya WF	84 wind turbines 210 MW
Karmalinovskaya WF	24 wind turbines 60 MW
Bondarevskaya WF	48 wind turbines 120 MW
Medvezhenskaya WF	24 wind turbines 60 MW
Berestovskaya WF	24 wind turbines 60 MW
Kuzminskaya WF	64 wind turbines 160 MW
Trunovskaya WF	36 wind turbines 90 MW

Rostov Region

Marchenkovskaya WF 48 wind turbines 120 MW

Transportation of wind turbine components, installation of wind turbines, electrical installation of wind turbines, participation in commissioning, maintenance of wind turbines

Cooperation since 2019

SIEMENS Gamesa
RENEWABLE ENERGY

Leader in the global renewable energy industry

Rostov Region

Azovskaya WF

Crane services for wind turbine maintenance

Cooperation since 2021

УРАЛВАГОНЗАВОД

The largest railcar building and repairing company in Russia and CIS countries

Nizhny Tagil

Installation of cryogenic tanks (weighing 35 tons) and the cold box (weighing 54 tons)

Cooperation since 2021

NOVATEK

The largest independent natural gas producer in Russia

YaNAO

Purovsky CPP

Installation of column equipment weighing up to 100 tons, installation of metal structures up to 70 m high

Yamal LNG, Sabetta

Participation in construction of the liquefied natural gas plant

Kharbeyskoye OGCF

Installation of column equipment and buffer tanks

Khancheykoye GCF

Dismantling of the muffle tank

Cooperation since 2013

СИБУР

The largest integrated petrochemicals company in Russia

Tyumen Region

TOBOLSK-POLYMER construction site

Installation of metal structures of more than 110 m in height

Loading and unloading operations with equipment weighing up to 100 tons

SIBUR URALORGSINTEZ construction site

Dismantling of column equipment weighing up to 120 tons

SIBUR Tobolsk

Set of construction and installation works for the replacement of the flare tip

Set of works to replace the internal devices of the reactor at the propane dehydrogenation unit

ZAPSIBNEFTEKHIM

Set of loading & unloading operations, construction & installation works as part of a turnaround maintenance at the premises of an enterprise

TOMSKNEFTEKHIM

Installation of the flare unit

Cooperation since 2012

MAJOR IMPLEMENTED PROJECTS

Russian gas company

YaNAO

Urengoy OGCF

Technical upgrade and reconstruction of well clusters (piping)

Project for the development and reconstruction of reservoir equipment at one of the Achimov deposits

Evo-Yakhinskoye GCF

Construction and installation for replacement of the flare equipment

Cooperation since 2021

Global energy company

YaNAO

Novoportovskoye OGCF

Renovation of high-pressure flares
Installation of flares 100 m high, installation of capacitive equipment weighing 84 tons

Pestsovoye OGCF

Provision of loading and unloading services by LIEBHERR mobile crane
Participation in the installation of CGTP equipment

Set of works for the replacement of the flare tip

Tazovskoye OGCF

Transportation and installation of industrial equipment weighing up to 170 tons

Bovanenkovskoye OGCF /

Kharasaveyskoye GCF

Crane services, loading/unloading and installation works of large amounts of machinery

Urengoy OGCF

Loading & unloading operations, transportation and installation of industrial equipment up to 127 tons in weight and more than 30 m in height

Cooperation since 2016

One of the largest oil and gas company in the world

KhMAO, YaNAO

Pyakyakhinskoye, Messoyakhskoye fields

Installation of gas turbine equipment, metal structures, capacitive equipment

Sredne-Nazymskoye field

Construction and installation at the facility (piping of multi-well pads)

Oil pipeline PNS "Bobrovka" - PNS "Andra"

Construction and installation on the 9 km long oil pipeline section

Cooperation since 2014

International drilling company

KhMAO, YaNAO, Komi Republic, Tomsk, Tyumen and Irkutsk Regions

Loading and unloading, installation/disassembly of drilling equipment

Cooperation since 2008

Modern manufacturing complex and one of the leading refineries in Russia

Krasnodar Region

Installation of column equipment and industrial equipment weighing up to 150 tons

Cooperation since 2023
